

## Tuck and Roll

The Vaccines

What's bitching about tuck and roll?  
Oh I hate being out of control  
But you had to call, all the shots  
And your high, when your not, are you not?  
Oh I'm grinding my teeth and I'm carving a mud chopper jaw  
It's just something new that I've never considered before

Oh where are you at?  
I need a drink  
Oh look at that, I wish we waited  
I'm calling back who ever is calling  
I made it up, but the truth is appalling

You said you gave up, but forgot  
So is it appealing, or what?  
Oh, ain't it a curious thing, when your finger's too fat for yo  
ur ring?  
Would you bee more happy, if life was just strait down a line  
Maybe its better to be punishing by them by desire

Oh where are at?  
I need a drink  
Oh look at that, I wish we waited  
I'm calling back whoever is calling  
I made it up but the truth is appalling

Where are you at, I need a drink?  
Oh look at that I wish we waited  
I'm calling back whoever is calling  
I made it up but the truth is appalling x3
