

# High Hopes

The Vamps

Well I met you yesterday  
You took my breath away  
And I kinda like the way  
That you're so damn unpredictable  
And that was just history  
It turned into you and me  
It happened so easily  
Like I'm living some kind of miracle

The world keeps spinning  
It won't stop  
It's just beginning

'Cause I got high hopes, high hopes  
High hopes for me and you  
And when we grow old, I'll say I told you so  
'Cause I got high hopes

I could move in with you  
And we could get married too  
Go on a honeymoon  
Maybe we should finish this coffee first  
It might sound a little weird  
It's like I've known you for years  
So every word you hear  
Might just sound a little over-rehearsed

The world keeps spinning  
It won't stop  
It's just beginning

'Cause I got high hopes, high hopes  
High hopes for me and you  
And when we grow old, I'll say I told you so  
'Cause I got high hopes

The world keeps spinning  
It won't stop  
It's just beginning

'Cause I got high hopes, high hopes  
High hopes for me and you  
And when we grow old, I'll say I told you so  
'Cause I got high hopes

I got high hopes, high hopes  
High hopes for me and you  
And when we grow old, I'll say I told you so  
'Cause I got high hopes
