

Paper Hearts

The Vamps

There's a lot of things that I may not know
But missing you baby is the only thing I know
I know

And who am I to say what the future holds
But missing you baby is the only thing I know
I know

If my heart was paper, I'd fold it
Throw it to the wind and just hope it

Ends up with you
I signed it with love from me to you
I tried to be cool
But my feelings, they don't allow me to
And all that I ask
Is that at least you write me back
I'm waiting
Here's my paper heart, won't you hold it
Hold it

Said you needed space so I gave you time
A year has gone by and I'm thinking you're still mine
In my mind

And I've written you this letter like a hundred times
To start a conversation that we should've had that night
I tried

If my heart was paper, I'd fold it
Throw it to the wind and just hope it

Ends up with you
I signed it with love from me to you
I tried to be cool
But my feelings, they don't allow me to
And all that I ask
Is that at least you write me back
I'm waiting
Here's my paper heart, won't you hold it
Hold it

Flying through fields, over sand
Hoping one day it will land
And end up with you

I signed it with love from me to you
I tried to be cool
But my feelings, they won't allow me to
And all that I ask
Is that at least you write me back
I'm waiting
Here's my paper heart, I just hope it

Ends up with you
I signed it with love from me to you
I tried to be cool

But my feelings, they don't allow me to
And all that I ask
Is that at least you write me back
I'm waiting
Here's my paper heart, won't you hold it
Hold it

Hold it, hold it

There's a lot of things that I may not know
But missing you baby is the only thing I know
I know
