

## Personal

The Vamps

Don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)

I think it's time I let my heart out on the line  
I think it's time to say what's playing on my mind  
I see you out with him and I say that I'm fine  
Happens every time (every time)

I'm sick and tired of playing games  
I'm sick and tired of being second place  
And I know if I never try  
I'll be sick and tired of being sick and tired

Don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)

Girl, don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)

Girl, don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)

Girl, don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see, girl)

You know how much I love it when you call me out  
You see it in my eyes, the way they follow you around  
'Cause yeah, I like the way you dance  
You know I do, yeah I do  
'Cause that's just you

I'm sick and tired of being friends  
I'm sick and tired of being there  
And I know if I never try  
I'll be sick and tired of being sick and tired

Girl, don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)  
Girl, don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)

So, let's make it personal  
Tell me what you like  
Let's make it personal  
'Cause I know that you want to try to get personal  
Tell me what you like  
Let's make it personal (personal)

So, don't take it personal  
But personally, I think you'd be better with somebody like me

But worse of all, you don't even see (you don't even see)  
Don't take it personal  
But personally, I think you'd be better with somebody like me  
But worse of all, you don't even see (you don't even see)
