

Rest Your Love

The Vamps

I see you move so I do understand
Why you get attention
I hear you talk but I don't comprehend
Why I get no mention

And you know, you know where to find me
Yeah you know where to go when you're looking for love
And you know, you know where I'm hiding
Yeah you know, yeah you know

That when the stars go out
You can rest your love on me
And when the world gets loud
Baby you can rest your love on me
When the stars go out
You can rest your love on me
And when the world gets loud
Baby you can rest your love on me

I used to try to get into your space
Then I learned my lesson
Cause you're the type in love with the chase
You need some rejection

And you know, you know where to find me
Yeah you know where to go when you're looking for love
And you know, you know where I'm hiding
Yeah you know, yeah you know

That when the stars go out
You can rest your love on me
And when the world gets loud
Baby you can rest your love on me
When the stars go out, you can rest your love on me
Yeah you can rest your love on me
And when the world gets loud, baby you can rest your love on me
Yeah you can rest your love on me

Yeah you can rest your love on me
Yeah you can rest your love, yeah you can rest your love
Yeah you can rest your love on me

And you know, you know where to find me
Yeah you know where to go when you're looking for love
And you know, you know where I'm hiding
Yeah you know, and you know

That when the stars go out
You can rest your love on me
That when the stars go out, you can rest your love on me
Yeah you can rest your love on me
And when the world gets loud, baby you can rest your love on me
Yeah you can rest your love on me

Yeah you can rest your love on me
Yeah you can rest your love on me
