

Same to You

The Vamps

At least we tried
Had to be sheer
Drove to my end
I had to smile

I know you can't sleep
It's half three and you're still up
Get on the group text about your ex
Because I messed it up
Heard that you moved on
Well that's a lie

Does he love like I do,
Touch like I do,
Babe, does it feel the same to you?
Does he hold you lightly,
Make you feel free?
Open your eyes and you will see
All off the other situations,
All that he had you wish was mine
Girl, does he love like I do,
Touch like I do,
Babe, does it feel the same,
Feel the same to you?

Hey girl, what's up
Checking me in
To see if you're ever into love with me
Don't have to be edgy,
But you can pretend,
We can stay friends
Every street sign I drop by
It takes me back
To the bedroom, your perfume, that old black dress
To you love me while your hands went round my neck
Do you miss me and...

Does he love like I do,
Touch like I do,
Babe, does it feel the same to you?
Does he hold you lightly,
Make you feel free?
Open your eyes and you will see
All off the other situations,
All that he had you wish was mine
Girl, does he love like I do,
Touch like I do,
Babe, does it feel the same,
Feel the same to you?
Feel the same to you, to you, to you, to you, to you
Feel the same to you, to you, to you, to you

I can't sleep
It's half three
I must get up
Get on the group text about your ex
Cause I fucked it up

Heard that you moved on
But that's a lie

Does he love like I do,
Touch like I do,
Babe, does it feel the same to you?
Does he hold you lightly,
Make you feel free?
Open your eyes and you will see
All off the other situations,
All that he had you wish was mine
Does he love like I do,
Touch like I do,
Babe, does it feel the same,
Feel the same to you, to you, to you, to you, to you
Feel the same to you, to you, to you, to you, to you
