

# Shades On

The Vamps

I got my shades on  
Like I'm rocking Barbados all night  
To put you out my mind now baby  
Taking my jeans off  
But I'm keeping my shades on all night  
To keep you out my sight now baby

Picture perfect pictures  
I'm looking like I just got laid  
Got the sunshine on my face  
Starting up the party  
I'm tripping like I just got paid  
And it's alright

I got my shades on  
Like I'm rocking Barbados all night  
And everybody thinks I'm high  
Taking my jeans off  
But I'm keeping my shades on all night  
And everybody stops

It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know  
It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know

Let's talk about that bass  
You got those big blue eyes around that babe  
But don't fall for everything  
Because I was hitting on a woman like this for days  
Like woah look at that ass  
Woah said look at that ass  
Get your eyes up to my face  
Cause I can see right through your shades

I got my shades on  
Like I'm rocking Barbados all night  
And everybody thinks I'm high  
Taking my jeans off  
But I'm keeping my shades on all night  
And everybody stops

It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know  
It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know

I got my shades on  
Like I'm rocking Barbados all night

And everybody thinks I'm high  
Taking my jeans off  
But I'm keeping my shades on all night  
And everybody stops

It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know  
It feels so cool like this  
I said it feels so good like this  
Said it feels brand new like this  
You know
