

# Windmills

The Vamps

You know I've always been a little bit grounded  
Always thinking 'bout how to get by  
But ever since I met you  
Yeah I've been dreaming and I don't know why  
Cause when I think of you, I get a little feeling  
And it starts to bubble up inside  
And then I'm all messed up  
Cause all I see is windmills in the sky

You got me acting like a schoolgirl  
You got me cheering like your number one fan  
My head's spinning like a windmill  
And all you have to do is touch my hand  
You know I lie awake at night now  
Just imagining how it would feel  
If you were lying by my side now  
It's the thought of you that makes you real

You do, what only you can do to me, it's true  
You do, what only you can do, hey

You know I've always been a little bit grounded  
Always thinking 'bout how to get by  
But ever since I met you  
Yeah I've been dreaming and I don't know why  
Cause when I think of you, I get a little feeling  
And it starts to bubble up inside  
And then I'm all messed up  
Cause all I see is windmills in the sky

You got me twiddling my hair now  
You got me screaming when you call my name  
My head is spinning like a windmill  
And all you have to do is look my way  
You know I lie awake at night now  
Just imagining how it would feel  
If you were lying by my side now  
It's the thought of you that makes you real

You do, what only you can do to me, it's true  
You do, what only you can do, hey

You know I've always been a little bit grounded  
Always thinking 'bout how to get by  
But ever since I met you  
Yeah I've been dreaming and I don't know why  
Cause when I think of you, I get a little feeling  
And it starts to bubble up inside  
And then I'm all messed up  
Cause all I see is windmills in the sky

Spin me, spin me round, so high off the ground  
You take me so high, like a windmill in the sky  
Cause all I see is windmills in the sky  
Spin me, spin me round, so high off the ground  
You take me so high, like a windmill in the sky  
Cause all I see is windmills in the sky

Spin me, spin me round, so high off the ground  
You take me so high, like a windmill in the sky  
Cause all I see is windmills in the sky
