

## Little Weirdo

The Vandals

The little weirdo down the street says he's making a rocket ship with household items,  
so we can't find him.  
Igloo cooler and some gasoline, soil samples and some magazines  
for the long ride home.

[Chorus:]

Set the controls for the farthest star and fly away.  
Little weirdo.  
No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away.  
Planet earth never offered much,  
just culture shock and a lot of strange looks from the native assholes.  
Ground control there's no one there, we haven't heard a word from his interstellar patio chair.

[Chorus:]

Set the controls for the farthest star and fly away.  
Little weirdo.  
No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away.  
The little weirdo left today he said we're doomed but from his view it's so beautiful.

[Chorus:]

Set the controls for the farthest star and fly away.  
Little weirdo.  
No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away
