

Talk Talk

The Vapors

Stop what you're doing let me hold you closer
Your head's so full of things I need to know
Switch off the TV turn the lights down lower
Just pay attention stop
Just pay attention stop

Your body thrills me like electrocution
I love the feel of a quiet ocean
Don't go and mess it up with elocution
Just pay attention stop
Just pay attention stop

Talk talk talk talk

Talk talk talk talk

Stop what you're saying let me just adore ya
My body loves ya but my ears ignore ya
You just keep picking on things that don't make sense
Your lips keep moving but they make no sense

I hate this kind of thing
I hate the in between
It's no use talking to you
Just pay attention stop
Just pay attention stop

I think it's time that you should let up
I think it's time we should get this straight
I think I might have been set up
I think I am making a big mistake

I hate this kind of thing
I hate the in between
There's no use talking to you
There's no way I can get through your
