

Government's to Blame

The Varukers

You voted them in, it's your fault.
They try to run the country, but they don't.
They fill you, full of lies.
'Cause they know, that you're blind

The governments to blame, it's always the same.
The governments to blame, it's always the same.
The governments to blame, it's always the same.
The governments to blame, it's always the same.
