

## Borderline

The Veer Union

I'm tired of being told to bite my tongue,  
I wanna scream at the top of my lungs.

Try, to speak, out loud, your silence me but now,  
I'll stand my ground, I'll let you know that:  
I'm tired of being told to bite my tongue,  
I wanna scream at the top of my lungs.  
It's like a nightmare but I'm lying awake,  
It's got me thinking that I am borderline.  
About to loose my mind  
It's time to face my fear  
And then I will make it disappear.

The war in me you set this thing to die,  
You set it free I'll let you know that:  
I'm tired of being told to bite my tongue,  
I wanna scream at the top of my lungs.  
It's like a nightmare but I'm lying awake,  
It's got me thinking that I am borderline.  
About to lose my mind,  
It's time to face my fear,  
And then I will make it disappear.  
Disappear.

I'm tired of being told to bite my tongue,  
I wanna scream at the top of my lungs.  
It's like a nightmare but lying awake,  
It's got me thinking that I am borderline.  
About to loose my mind,  
And now you will see your time has come,  
Pay for all this damage done,  
Face my fear and then I will  
Make you disappear.  
Disappear.
