Inside Our Scars

The Veer Union

Been times, don't want to hold on You blink an eye and then they're gone Can we revive our other life Or is it done Another day to fall away from The memories when we were one I'm not sure there is a cure, Can this be undone? Where did we go wrong?

One more time around, cause There's a war in between our words again Cause you only believe me now and then But I need you to know You've always been The reason that I breathe oxygen Why can't you believe me? So close but yet so far We have lost who we are So close but yet so far We are lost inside our scars

We've been around, this come again, I Guess that's the price we pay Still I've been, I'm wondering Can this be undone? Where did we go wrong?

One more time around, cause There's a war in between our words again Cause you only believe me now and then But I need you to know You've always been The reason that I breathe oxygen Why can't you believe me? So close but yet so far We have lost who we are So close but yet so far We are lost inside our scars

One more time around, cause There's a war in between our words again Cause you only believe me now and then But I need you to know You've always been The reason that I breathe oxygen Why can't you believe me? So close but yet so far We have lost who we are So close but yet so far We are lost inside our scars Inside our scars Inside our scars Inside our scars... You blink an eye, and then they're gone...
