

# Your Love Kills Me

The Veer Union

Feel you run, right through my veins  
Can't get enough, my heads in a haze  
Addicted to you, you're my disease  
Take over me

I burn like the sun  
Sway like the sea  
You're a loaded gun, pointed at me  
Addicted to you, you're what I need  
You're my disease, take over me  
But I've had enough and now I finally see

Its time for me  
Its time that I try to move on  
Before your love kills me  
And I'll break free, from all of the damaged you've done  
Before your love kills me

Slowly drown, as you pull into me  
Swallow it down, I'm in way to deep  
Addicted to you, you're what I need  
You're my disease, take over me  
But I've had enough and now I finally see

Its time for me  
Its time that I try to move on  
Before your love kills me  
And I'll break free, from all of the damaged you've done  
Before your love kills me

I will leave it all behind me  
The memories of you remind me  
I have to let go  
Cause you dug me this hole  
You've taken more than you know  
So I have to let go, of you!

Its time for me  
Its time that I try to move on  
Before your love kills me  
And I'll break free, from all of the damaged you've done  
Before your love kills me

Its time for me  
Its time that I try to move on  
Its time that I try to move on
