

Ain't Too Hard to Live Without Love

The Verve Pipe

Long ago I was told to write what you know
It's good advice you paid the price
What I know is love will come and love will go
I still make do and so can you
It ain't too hard to live without love
It ain't too hard to live without love
Ain't too hard to live without love
I make do

Up at dawn, you drink one more cup and then you're gone
You're under the gun 'til the day is done
Rest your head
All of the words that were left unsaid
Let 'em go 'cause don't you know
It ain't too hard to live without love
It ain't too hard to live without love
Ain't too hard to live without love
I make do
It ain't too hard to live without love
It ain't too hard to live without love
Ain't too hard to live without love
I make do

Little house in the country
Little getaway
'Til you find that they're really not the kind to stay
And you're left alone and drop to your knees
And you pray

That It ain't too hard to live without love
It ain't too hard to live without love
Ain't too hard to live without love
I make do
It ain't too hard to live without love
That's the one thing that there's plenty of
But It ain't too hard to live without love
I make do
It ain't too hard to live without love
It ain't too hard to live without love
It ain't so hard to live...
