

In Between

The Verve Pipe

In march I met my wonderlove
Then lost her underneath the April showers
By May, we worked out our difference
By June, the petals were all plucked from flowers

In between, my girl
And there is no other in this world, oh no
Am in between her, my girl
And it's gonna be a brighter day
If she'd get the nerve to stay

Hey, would you mind standing in for
I only need you for this weekday evening?
Saturday, I never knew you, sorry dear
You really need to understand that I am

In between, my girl
And there is no other in this world, oh no
I am in between her, my girl
And it's gonna be a brighter day
If she'd get the nerve to stay

But she always gives me the runaround
She left me for a college boy and as sure as the world is round
Next semester, she'll be back again
We're always off and on again
But for awhile I'll surely keep your number

In between, my girl
And there is no other in this world, oh no
I am in between her, my girl
And it's gonna be a brighter day

In between, my girl
And there is no other in this world, oh yeah
I am in between her, my girl
And it's gonna be a brighter day
If she'd get the nerve to stay, nerve to stay
