

## Television

### The Verve Pipe

She's signing autographs for hours  
The line are longer when you deal with amateurs  
I've got some autographs of others  
But a shirt that smells a little like her

Once the bane of my perversion  
Now she's on the television

Turn it up, turn it down  
Tune me in, tune me out

Bite my lip around the family  
They know her holiday and summer weekend face  
She's got a lovely shitcom family  
Adopted one of every single race

Put yourself in my position  
My ex is on the television

Turn it up

When you place your lips upon the screen  
A spark of which I've never seen  
A volume knob controls the scream

Turn it up
