The Vibrators

Well, you wanna get Tanita
Cos she looks like your kid sister
And when you tell her that you love her
She tells you to get lost forever

You're gonna destroy somebody
You're gonna destroy some city
Well, you might just blow up the world

You go looking for some job
And the man push and took the shop
You go looking for another
There's murder in your heart

You wanna destroy somebody
You wanna destroy some city
Well, you might just blow up the world

You wanna get your hands on the future
Cos you're mad at somebody
Cos you're mad of somebody
Cos you're mad of some honey
C'mon!

You wanna destroy somebody
You wanna destroy some city
Well, you might just blow up the world
