

# I DON'T NEED IT

The Vibrators

Government's bleeding me for all it can get  
Pushing me deeper into debt  
My girlfriend's jumping 'round the room off her head  
Instead of lying quiet in bed

No, I don't like it, no not one bit  
I tell you I don't need it  
I wrote a million songs but I never got a hit  
I tell you I don't need it

People kept telling me to clean my room  
There's some control thing going on  
Got into a fight on the bus on the way home  
Now I've lost my job and my mobile phone

My brain feels like it's falling to bits  
I tell you I don't need it  
No, I don't like it, no not one bit  
I tell you I don't need it

Nobody seems to know  
What's really going on  
And no-one can help me  
When the monsters come

Can't get a seat on the rush hour train  
Just another thing doing in my brain  
They say there's room for everyone  
But what's there to do around here for fun?

No, I don't like it, no not one bit  
I tell you I don't need it  
Stay away from me or you're gonna get hit  
I tell you I don't need it

I don't need it (2x)  
The bank wants its money back but where is it?  
I don't need it (2x)
