

NO WAY

The Vibrators

You always gave me grief
Stealing my time, you little thief
I thought your love was true
That's why I stuck it out with you

You went off with one of my friends
You said it wouldn't happen again
I was stupid I suppose
I caught you putting back on your clothes

Hey girl, there's no way
I'm sticking with you another day
(2x)

I thought you were okay
A little bit weird in your way
It was you who wrecked my car
You're nobody, not a movie star

Hey girl, there's no way
I'm sticking with you another day
(2x)

Stole my chequebook and you tried to torch my flat
Were rude to my friends and you tried to kill the cat
It didn't take you long, I swear
Before you'd become my worst nightmare

You used to lie and lie
Now it's goodbye goodbye
Our relationship, there's nothing in it
I can't stand you for another minute

Hey girl, there's no way
I'm sticking with you another day
(4x)
