

## Stiff Little Fingers

### The Vibrators

Hangs a naked light over your face  
Shines electricness upon your bed  
If it wasn't for your Stiff Little Fingers  
Nobody would know you were dead

You never really did much living  
You mainly sat and watched your TV  
I think it had you on remote control  
Ticking over nicely

But you screwed up this time  
Now you gotta start from the bottom again  
It's a serious game  
When you gotta start from the bottom again

I want to be dead

The optician said 20 20  
But you stumbled round like you were blind  
You never saw beyond your own 4 walls  
It's a shame you never saw the light

But you screwed up this time  
Now you gotta start from the bottom again  
It's a serious game  
When you gotta start from the bottom again  
When you gotta start from the bottom again  
When you gotta start from the bottom again  
When you gotta start from the bottom again

I'm gonna start now.....
