

# WE'RE THE DEAD

The Vibrators

We're calling you girl, from the other side  
Won't you become our spectral bride?  
You can come and dance in limbo  
We love to feed on another bimbo

We're the dead (3x)

You used to live in North West Three  
Now you're a discorporate entity  
Didn't know your life was through  
Till we came to collect you

We're the dead (3x)

You're gonna feed us  
With your flesh and your guts  
We can find you even if you're hidden  
And for us nothing is forbidden

We're the dead (3x)

We inhabit the spirit world  
We get so hungry, girl  
We wanna get our hands on you  
But our hands, they are see-thru

We're the dead (3x)

For some it's another burning day in hell  
Look at them, they don't look so well  
The pain's so terrible you see  
But it only lasts for eternity

We're the dead (3x)
