

Bunker (Solid Ground)

The View

[Chorus:]

I'll stay with you 'cause I know how
To keep my feet on solid ground
The milts are sour when left on the bunker for days

I know that you're about to head to 22
I told enough to know who's coming on to you
Your complaints to his standards
And everyone that falls by the way
I see your targetings I fading into black
You rather lie out front with him and leave me in the back
But you're still Rosie from door 6
And tend the smiles that get me every time

[Chorus:]

I'll stay with you 'cause I know how
To keep my feet on solid ground
The milts are sour when left on the bunker for days

Not many days ago you learned to turn the rope
The rope now saven you from learning how to cope
So cut it in half and use it's sack
To lesson the one's you love the most
Should I oil you up, or shake you down
Pick you up and squeeze you out
Up this little black hole
You fought an empty town in time again

[Chorus:]

I'll stay with you 'cause I know how
To keep my feet on solid ground
The milts are sour when left on the bunker for days

Stop talking on the phone when the cables on my night
Your logic's for me now, on the movies that you've found
Get you heart above your strings, you silly little thing
Your tired mind is wasted on my time

[Chorus x3:]

I'll stay with you 'cause I know how
To keep my feet on solid ground
The milts are sour when left on the bunker for days

I'll stay with you 'cause I know how
To keep my feet on solid ground
I'll stay with you 'cause I know how
To keep my feet on solid ground
You know I'm gonna keep my feet
You know the milts are sour when left on the bunker for days
