

## Bunker (Solid Ground)

The View

[Chorus:]

I'll stay with you 'cause I know how  
To keep my feet on solid ground  
The milts are sour when left on the bunker for days

I know that you're about to head to 22  
I told enough to know who's coming on to you  
Your complaints to his standards  
And everyone that falls by the way  
I see your targetings I fading into black  
You rather lie out front with him and leave me in the back  
But you're still Rosie from door 6  
And tend the smiles that get me every time

[Chorus:]

I'll stay with you 'cause I know how  
To keep my feet on solid ground  
The milts are sour when left on the bunker for days

Not many days ago you learned to turn the rope  
The rope now saven you from learning how to cope  
So cut it in half and use it's sack  
To lesson the one's you love the most  
Should I oil you up, or shake you down  
Pick you up and squeeze you out  
Up this little black hole  
You fought an empty town in time again

[Chorus:]

I'll stay with you 'cause I know how  
To keep my feet on solid ground  
The milts are sour when left on the bunker for days

Stop talking on the phone when the cables on my night  
Your logic's for me now, on the movies that you've found  
Get you heart above your strings, you silly little thing  
Your tired mind is wasted on my time

[Chorus x3:]

I'll stay with you 'cause I know how  
To keep my feet on solid ground  
The milts are sour when left on the bunker for days

I'll stay with you 'cause I know how  
To keep my feet on solid ground  
I'll stay with you 'cause I know how  
To keep my feet on solid ground  
You know I'm gonna keep my feet  
You know the milts are sour when left on the bunker for days
