

Hole in the Bed

The View

[Refrain:]

I miss you like a hole in the bed
Unlike these pills you really clear my head
You're the answer to my prayers
The only one that cares
That's all

[Verse 1:]

I love you like, the night loves dark
You pull me back together when I've been torn apart
You're the answer to my prayers
You're the only one that cares
That's all

[Chorus:]

These dreams were made for me and you
I can't remember when the truth became so untrue
These dreams were made for me and you
I can't remember when the truth became so, so untrue

[Refrain:]

I miss you like a hole in the bed
Unlike these pills you really clear my head
You're the answer to my prayers
The only one that cares
That's all

[Verse 2:]

I need you like love needs hate
I want this whole world but I don't want to wait
I have everything that I need
Why should I keep tempting fate
That's all

[Refrain:]

I miss you like a hole in the bed
Unlike these pills you really clear my head
You're the answer to my prayers
The only one that cares
That's all

[Bridge: x8]

Run-run-run you pull me back together

[Chorus: x3]

These dreams were made for me and you
I can't remember when the truth became so untrue
These dreams were made for me and you
I can't remember when the truth became so, so, so untrue
