

# How Long

The View

[Chorus:]

How long has it been since you've fell in love with a boy like me?

How long has it been since you've fell in love with a boy like me?

When you drop 6 bottles of your best perfume, I'll turn them in to 12

Standing on the shoulders that are slating you I slay them all myself

Your last order of your cheap old wine has never helped your case,

I'll come running with a crate of champagne to brighten up your face

So don't call me crazy, cause it's all for you lady!

[Chorus:]

How long has it been since you've fell in love with a boy like me?

How long has it been since you've fell in love with a boy like me?

You're the third note in my triangle,

Without you I see a little world

I'll come running when the windows make a chime.

Cause if I take your words in the song I sing,

Like the rock, the paper, the scissors, that sort of thing

The question is waiting in the pretty scene, how long has it been?

So don't call me crazy, cause it's all for you lady!

[Chorus:]

How long has it been since you've fell in love with a boy like me?

How long has it been since you've fell in love with a boy like me?

I'll come running, come running, when the wind don't make a chime

Come running, I'll come running, when the wind don't make a chime

Don't make a chime for me and you

[Chorus: (4x)]

How long has it been since you've fell in love with a boy like me?

How long has it been since you've fell in love with a boy like me?
