

Underneath the Lights

The View

Underneath the lights
On the stage in my hometown
You never seen the likes
So many people singing aloud
Singing along to my song
Speak in your ear, chill you to the bone
Too much is never enough
No matter how much will always want more

And all the people so friendly
Now all they do is apologise
And all the people so friendly
We're gonna dance, dance, dance into the night

Drink like the Irish
One second you're as high as a kite
The next you're on the floor
You know the Scots there's always a fight
Has there ever been a reason to bite?
Keep your lips on me, try as hard as you might
Pour them from a height, and drown me in a cloud of delight

And all the people so friendly
Now all they do is apologise
And all the people so friendly
We're gonna dance, dance, dance before the fight

And now we've kissed, let's make the most of this
I don't care who's wrong, I just don't wanna go home alone

Sacrifice delight, a part of life never ignore
Give me all you've got, I can take it all and more
Seen it in a film before, stingy drinks and thugs on the door
I've seen this before, it's your turn to chill me to the core

Ah you used to be so friendly
Now all you do is apologise
Before you go on your frenzy
Let's dance, dance, dance into the night

And now we've kissed, let's make the most of this
Before the night turns sour, let's use this final hour

And now we've kissed, let's make the most of this
I don't care who's wrong, I just don't want to go home alone

You're out of line, you're out of line, you're out of line, go home

And now we've kissed, let's make the most of this
And now we've kissed, let's make the most of this
Before the night turns sour, let's use this final hour
And now we've kissed, let's make the most of this
I don't care who's wrong, I just don't want to go home alone

Kiss and make up at the end of the night
