

## Surgery

### The Vincent Black Shadow

Coming back from surgery,  
Coming up on seventeen  
Some kind of a plasty or maybe a lobotomy  
Coming back from surgery,  
Coming up on seventeen  
I don't remember how i looked before he got to me.

Oh, oh, oh x2

Coming up on twenty three cut a piece of skin from me  
Never have to whine a lot they never seem to know its me.  
And hes standing over me  
Wide awake and clenched white teeth  
"Now its time" he says "to open up so i can see"

Caked oh, caked all over x4
