

## Valentine

## The Vincent Black Shadow

I wanna be your valentine  
I wanna spike your milk with wine  
I want to make the others cry  
with your fading shadow

I got a stick of dinamite  
promise to stay awake tonight x2  
When I blow the barrel  
you owe me another night x4  
maybe when the doctor calls  
a better girl will take the fall  
and even though you've run so far  
you always in the bruises with me  
your desperate I'm pleased  
you owe me another night x4  
oh oh x8  
a pony a glass of wine  
if only another night  
she canters backwards for miles

you owe me another night x8
