

More Than Nothing

The Vindictives

You could never be enough
You could never be enough
Never, never no, no, no
You could never be enough
You're nothing now and you never were
You're the empty core of a hollow shell
And all you are or will ever be is nothing
Did you think that you could be more
Than nothing to anyone but me
You could never be enough
You could never be enough
Never, never no, no, no
You could never be enough.
