

# Reincarnation

The Vines

Round and around and around in the neon  
Round and around and around here we go  
Round and around and around in the neon  
Round and around and around don't ya know

It takes seven days to leviante the strain  
Before you start again  
Time it never ends

Round and around and around in the neon  
Round and around and around here we go  
Round and around and around in the neon  
Round and around and around ya should know

There's far too many ways to mediate the pain  
Before you count to ten  
Time it never ends
