

## Darkness Of Mine

The Wake

Again you see me me walking here  
Nobody near just you and me  
In my own nest - Frustrations nest  
So you came - You came into my life  
So you peeled me - Debarked this tree  
That you could see under my skin  
Look far ahead - I am not here  
Just an illusion made of hate

Cought in the life again  
No-one but you can see  
I'm cought in this hell-wheel of life again  
Cought in the world of lies  
Nothing but death in my eyes  
I'm cought and i cant find the way out

As we're stuck into this world of fire  
Nobody can hear my endless desires  
I'm all alone there's nobody in here  
Nobody can save me from myself
