

Grand Theft Auto

The Walkabouts

In this town
The blood will make you rich
Yeah, in this town
The blood will make you rich
In this town
I will do you one better
I'll change the truth
When I change the weather
In this town
The blood will make you rich
And when you're down
You can buy the Jesus pose
'Cause in this town
All roads lead to this
And when you're down
I will kill it again
I'll give ya something
To forget about him
In this town
All roads lead to this
And come tonight, yeah come tonight
We'll take a ride
And come tonight, yeah come tonight
We'll see the lights
You will lead and I will follow
You will lead me, down to the hollow
You will lead me down
Grand theft auto
You will lead me down
In this town
We have got the Midas touch
Yeah in this town
The gold will make you blush
Some of it's cooling
And some of it's glitters
All of it's cold
And it gives me the shivers
In this town we've got the Midas touch
And come tonight, yeah come tonight
We'll take a ride
And come tonight, yeah come tonight
We'll see the lights
You will lead and I will follow
You will lead me, down to the hollow
You will lead me down
Grand theft auto
You will lead me down
