

See It in the Dark

The Walkabouts

Tryin' hard to keep this
I see it in the dark
I see it in the dark
Lost my way
Right from the start
But i see it in the dark
I see it in the dark

Every lick and every lie
Every bliss, and every good bye
I see it in the dark
I see it in the dark

Finally time
To go out dancin'
Pull the blue suit
From the bag

The one you bought
For my husband's funeral
In hopes he would
Up and die

In a clutch or in a bind
At times i, still can... Find the time
To see it in the dark
I see it in the dark

My hopes are wicked... My tears are blind
At times i still can...find the time

To chase the spark... Feel the charge
It's going dim... It's nearly gone

Can you see it in the dark?
I see it in the dark
I see it in the dark....see it....see it
I see it in the dark....see it....see it
