

Silenci

The Walkabouts

if you have to silence me
do it now, do it now
while I can still say no
and you have nothing, with which to bribe me

I don't want to wait
do it now, do it now
while I can still feel
all the horror, weighing heavy

it doesn't hurt me none
to keep my mouth, firmly closed
you are the ones who made
these words, from the silence

I don't want to wait
till time, rusts the weapons
I don't want this fear
to have more time, with which to beat me

If ya have to silence me
do it now, do it now
while I still have the hands
to trade this guitar, for another

It doesn't anger me
to keep my mouth, firmly closed
you are the ones who made
these words, from the silence (2x)

If ya have to silence me
do it now, do it now
