

## Winslow Place

### The Walkabouts

Planes fly low over  
Our heads over our bed  
The sky went lavender  
For just one day  
The sky went lavender  
For just one day

Faith... and faithful  
Grace... and grateful

The wind at Winslow Place  
Reached all the rooms  
The wind at Winslow Place  
Reached all the rooms

Don't ya' know there is hope  
Braided in the rope  
Drag your fear to the clear  
I'll take it for my own

Don't call just show  
Don't bend my ear  
Don't want to know  
Caress don't confess it  
Murder time don't possess it

Reach down surrender  
You were my sad reckless driver

The wind at Winslow Place  
Reached all the rooms  
The wind at Winslow Place  
Raced after you

The swallows pause then streak  
N' turn then fade into the North  
Guide wires suspend them  
Not from heaven  
Not from earth  
I know they'll be returnin'  
And I guess I know you won't
