

You're All Around Me

The Walker Brothers

In the morning when everything has ended
And night's cover has lifted without you
In my mind I am here alone suspended
with memories of you

In the streets I can hear the day beginning
Another day beginning without you
If you don't come back to me tomorrow
I don't know what I'll do

You're all around me everywhere
And in this city's lonely places
This crowded sea of faces
You're there
You're there

I tried so hard to keep our love together
Things that you could never ever know
and I'm resigned to loving you forever
I know I can't let go

You're all around me everywhere
And in this city's lonely places
This crowded sea of faces
You're there
You're there
