See You When I Get There

The Wallflowers

I'm looking up At the moving clouds I've been hit so hard This time I just might stay down If you were me I would come back To get you If this is love Then I don't remember You won't find anyone To treat you better we've already been through Hell and high waters

I ain't sorry baby don't think that We ain't done anything That I'd take back Go on pretend That you ain't changed And don't worry bout' me I'll see you when I get there

I'm looking up At the moving clouds I've been down so long But I still think you Might come around So I'm making plans For when you feel better You just might want Someone more familiar You won't find anyone Else to take you back Now sometimes you're an angel But you're usually A pain in the ass

I need your love Much more than I want it You left me here With another bad habit Now you found paradise And crawled to the shoreline I saw a white flash And then I saw the lids of my eyes
