

Friend Or Foe

The Wannadies

Seven years you said to me
Unstained, we'll make history
Seven years you lied to me
So it's painful to see but now I see

Oh no, not again
Another friend, fucked me over
Oh no, what a blow
Friend and foe and what's more

You don't even care, I scream and I swear
Say it's not you, you were supposed to be good
So damned unfair, I scream and I swear
Say it's but you, you were supposed to be good

Snowy days and ice cold nights
The kind of lazy-hazy high
Simple song and games we play
No one's going to give yourself away, who would've known

Oh no, not again
Another friend, fucked me over
Oh no, what a blow
Friend and foe and what's more

You don't even care, I scream and I swear
Say it's not you, you were supposed to be good
So damned unfair, I scream and I swear
Say it's but you, you were supposed to be good

Oh no, not again
Oh no, not again

Oh no, not again
Another friend, another friend
Oh no, oh no
