

# I Love You Love Me

The Wannadies

If I could find a way I would  
tell you  
everything I'd like to  
tell you  
I would do everything  
you'd want to do  
play every silly game  
that you'd like to

If I could find a way I would  
hold you  
the same way a loving mother  
would hold you  
Or I could bring you to your knees  
hurt you bad and ask you  
how it feels?

I say, words never come when I  
want them to  
Things never happen the way I  
want them to  
And if I hurt you really bad  
I would  
let you know that I feel sad  
then I could  
Smash your face in with a stone  
have a good laugh  
when you're gone

I say, words never come when I  
want them to  
Things never happen the way I  
want them to

I love you, I love you, I love you  
I promise you I do  
I love you, I love you  
I promise you I do

I love you love me  
I love you love me
