

Silent People

The Wannadies

I want to go where the silent people go
Because I've been told, silence is gold
Being without being heard, without a word
And I would nod, there's a god
And you, how about you
A whole new flavor

If you hear it, taste it
Soon is not too soon
You can be a humble dream boy too

I want to go where the silent people dream
About simple things, everyone's a king
Being without being hurt, oh how absurd
If there's a god, he's in that world
And you, how about you
A whole new flavor

If you hear it, taste it
Soon is not too soon
You can be a humble dream boy too
And if you hear it, maybe
You can go there too
You can be a humble dream boy too
