

## So Happy Now

The Wannadies

I walk around in my room  
Thinking about things to come  
I close my eyes thinking about  
What has been

I don't feel like going out  
Afraid of meeting someone  
With a malicious smile asking me  
How do you feel?

But we are so happy now  
Yes we are so happy now  
Yes we are so happy together

I wander about heading nowhere  
Wondering why I lied  
But with my eyes closed  
It's too dark inside

I don't feel like staying in  
Afraid of someone calling  
An ironic voice in my ear  
How do you feel?

But we are so happy now  
Yes we are so happy now  
Yes we are so happy together
