

String Song

The Wannadies

Home, is away from home, smile cause no snow, here to break the
fall
leave everything behind, reset my blurry mind, start to run aga
in
yes, everything is fine, you ask I lie, bad is good to hide
love, what a waste of time, your heartbeat mine, I learn, I gro
w harder
I burn, you'll see
yes, everything's a dream, I'm down on my knees, you're not lis
tening
smile as you twist the knife, you take what's mine, I learn, I
grow harder
I burn, you feel
yes, everything is fine, no pain allowed, modern life (?),
scream if you don't know the words, I don't feel no word
I don't feel anything
what have you done, everything is gone, my lips feel numb
what have you done, my hands are cold, don't ask just go, go, g
o
what have you done, what have you done, what have you done
what have you done, what have you done
