

Suddenly I Missed Her

The Wannadies

If you say you love me girl
I say you're in love with
love itself

If you say you love me girl
I say you're in love with
someone else

I try to find my way down by the river
Thinking is easier when you don't
have to hide
a goodbye

Suddenly I missed her
Suddenly I loved her

If I look at you and say
I want you back
I'll be your slave

You just raise your head up high
You walk away
please tell me why

I try to find my way doen by the riverside
Thinking is easier when you don't
have to hide
a goodbye

Suddenly I missed her
Suddenly I loved her
