## **Suddenly I Missed Her**

## The Wannadies

If you say you love me girl I say you're in love with love itself

If you say you love me girl I say you're in love with someone else

I try to find my way down by the river Thinking is easier when you don't have to hide a goodbye

Suddenly I missed her Suddenly I loved her

If I look at you and say
I want you back
I'll be your slave

You just raise your head up high You walk away please tell me why

I try to find my way doen by the riverside Thinking is easier when you don't have to hide a goodbye

Suddenly I missed her Suddenly I loved her
