

It's time to bust you free my friend  
You've suffered long enough  
Hell-bent, crazy, fucking lazy  
Wishing I was young

Oh won't you take me from this sterile place  
And travel me 'til I'm dead  
Cause years ago I played this show  
That's all I think of in my head

You're the wiser, you're the wiser one than me  
You're the wiser, you're the wiser one than me

I'm at a home for shattered lives and I gather  
Dust beyond my age  
And I'm sitting years and trimming fears  
Of life in the present day

You're the wiser, you're the wiser one than me  
You're the wiser, you're the wiser one than me

When I was young and oh so full of it  
Well people were talking I could hardly know

Time to bust your chains alright  
We got too far ahead  
The years I held so dear are over  
And I'm living here instead

I'm the wiser, I'm the wiser one than me  
I'm the wiser, I'm the wiser one than me  
I'm the wiser

When I was young and oh so full of it
