

# Dumbing Down the World

The Waterboys

I'm dumbing down the world  
Yes, I'm dumbing down the world  
And my head is held high  
And the glint in my eye  
And my arrogance rumbles before me

I'm dumbing down the world  
I'm dumbing down the world  
I'm dumbing down, I'm dumbing down the world  
I'm dumbing down the world

And my thoughts are banal, like a stagnant canal  
And my sycophants shamble behind me

I'm dumbing down the world  
Yeah, I'm dumbing down the world  
I'm dumbing down, I'm dumbing down the world  
Yeah, I'm dumbing down the world

And my power is come around, is come around  
Yes! My hour is come around, is come around - look around

I'm dumbing down the world  
Yes, I'm dumbing down the world

And my works are designed to suck blood from your mind  
For you energy feeds and sustains me

I'm dumbing down the world  
Yes, I'm dumbing down the world  
I'm dumbing down the world (and I love it!)  
I'm dumbing down the world
