

But A Breath

The Wedding

One shot is all you've got
to make a mark to make you're difference
one chance, but you don't understand this

la la la la la
la la la la la
life is but a breath
don't waste it

cause your time is limited
all you have is the breath already exiting your lungs
if you won't live you might as well die
you can't afford to lead that life

hands down no regrets
life has it's hands around my neck
fight back no regrets
life has it's hands around our necks
