

## Price For Love

### The Wedding

the lights go out in my corner of the world tonight  
and so do the lights in your eyes  
yeah so did the lights in your eyes  
now i don't wanna preach to you, i just care too much  
to let you walk away from this

and he died, so never forget, forget his love  
yeah and he died, to show us, the price you pay for love

i never said that this would be easy  
in fact it's the hardest thing that you will ever do  
but don't worry they will never capture you  
you've already been set free from this

so right your wrongs and make your amends  
we are running out of time  
this is our song that we sing from the mountain  
can you hear it, can you hear it  
this is our song that we sing to you  
can you hear me, can you hear me
