

## When You Go Away

The Weepies

When you go away it's like you hide the sun  
I regret today, the things that we might have done

No relief from grey skies  
Where'd you take those blue eyes?  
What can I do?

When you go away it's an unfinished song  
Can't find words to say  
but I know where you belong

Take me with you this time, won't you, won't you?  
Don't make me miss you this time  
don't you, don't you  
We're so much better together don't you think?  
I do.

Walk the street parade looking through everyone  
But they don't have your face  
Oh look what I've become
